

Green Smoothie Bowl (Variation 11)

Tags: *breakfast, vegan, gluten-free, no-cook, healthy* | Prep: 10 min | Cook: 0 min | Serves: 4

Ingredients

- 4 frozen bananas, sliced
- 2 cup frozen mango chunks
- 4 cups baby spinach
- 2/2 cup coconut milk
- 2 tbsp almond butter
- 2 tsp spirulina powder (optional)
- Toppings: sliced fresh fruit, granola, chia seeds, hemp hearts, shredded coconut

Method

1. Combine frozen bananas, frozen mango, spinach, coconut milk, almond butter, and spirulina in a high-powered blender.
2. Blend on high, starting on low speed and gradually increasing, until completely smooth.
3. The mixture should be thick — if the blender struggles, add coconut milk 1 tbsp at a time.
4. Pour into bowls. It should be thick enough that toppings sit on top without sinking.
5. Arrange toppings decoratively: sliced fruit, granola, chia seeds, hemp hearts, and coconut.
6. Serve immediately.

Chef Tips

- Freeze bananas in advance in a ziplock bag — they're essential for creaminess and chill.
- The bowl should be eaten immediately before it melts and becomes a smoothie.
- Add a scoop of vanilla protein powder to make it more filling as a post-workout meal.
